

Year 5 Home Learning

Autumn 1

World War II 1939 - 1945

History: Create a time line of WWII. Be creative, can it be a 3D time line think outside the box!

2 leaf pts

Literacy: Write up your instructions for either baking the carrot cookies or making an Anderson shelter.

2 leaf pts

Music: Are there songs that were famous in WWII? Can you see whether there is one you like? Why do you like it: are WWII songs the same as our songs today. Share with the class.

2 leaf pts

ICT: Do you have a family member who fought in the war. Why not share with a PowerPoint?

2 leaf pts

French: We are learning about Computer Activities - get ahead of the class and look it up. Linguascope-> Beginner->Les Loisirs->Sur l'ordinateur. web link:<https://www.linguascope.com/secure/students/beginner/topic.php?language=french&topic=computer>

2 leaf pts

Why not go above and beyond your classroom learning, immerse yourself in some fun activities and show off your ability and ambition. By completing some of these homelearning tasks you can have fun and earn leaf points as you go! You decide!

Geography: Create a world map and identify the countries that were involved in WWII.

2 leaf pts

Chemistry: Choose an object from around your house draw it - identify the materials and say why they have used them. eg a frying pan!

2 leaf pts

Literacy: Is there any War poetry on WWII? Could you find one that you like and read it to the class!

2 leaf pts

Maths: Take on your family and friends in Multiplication War -see reverse of page for instructions. Whose the winner? A photo please!!

2 leaf pts

Art: Are you an artist poppies are synonymous with WWII. Why not show us your artistic talents by either sketching or painting poppies!

2 leaf pts

DT: Why not try and bake some good old carrot cookies, using a WWII recipe. Take some photos.

2 leaf pts

or

DT: Why not try to make an Anderson Shelter - great instructions and ideas online!

2 leaf pts

Maturity - Resilience - Independence

Multiplication War

Play multiplication war, a fun card game, with your child and before long those annoying multiplication facts will be part of her mathematical skill set. Besides strengthening multiplication skills, multiplication war also provides practice in comparing numbers.

What You Need:

- Deck of cards
- A kitchen timer

What You Do:

1. Shuffle the deck of cards and deal them face down, giving each player an equal number of cards until the deck runs out. Each player keeps his cards in a stack. Assign picture cards, such as jacks, queens, and kings, a value of 10. Give aces a value of either 11 or 1.
2. Demonstrate to your child how to play the game: Each player turns two cards face up, reads the number sentence and supplies the answer. For example, if your child draws a 5 and a 4, he says $5 \times 4 = 20$. If you draw a 7 and an 8, then your number sentence is $7 \times 8 = 56$. Because your product is larger, you win the four cards and you put them at the bottom of your pile.
3. If each of you has a number sentence with the same product, then it's war! Each player puts four cards face down and turns up two of them. The player with the largest product wins the eight cards.
4. Set up the timer and play the game for 10 to 15 minutes. When the bell goes off, each player counts his cards. The player with the most cards wins. If one player runs out of cards before time is up, then the other player wins.
5. Say no to boring "drill and kill". Get your game on! Multiplication Math War is an enjoyable way to spend time with your child while strengthening their math skills
