Origins

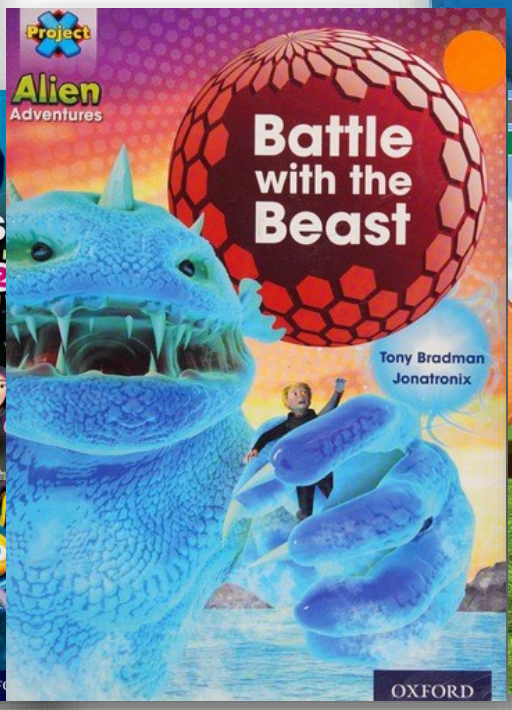

Project X Phonics at BJS

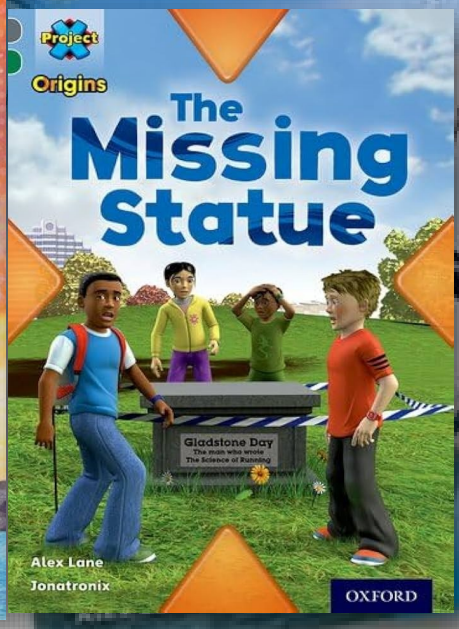

At our school, we are committed to giving every child the strongest possible support in their reading journey and *Project X Phonics* plays a key role in achieving this. This highly engaging programme is carefully structured to help children build on essential phonics knowledge—developing their ability to decode, blend, and read with increasing confidence and independence. The scheme is designed to be fun, accessible, and motivating, offering children a wide range of opportunities to practise new sounds and apply their skills in meaningful ways.

To support focused, high-quality learning, our phonics sessions take place in a dedicated learning space that has been specifically set up to promote concentration, enjoyment and a sense of security. This environment allows children to fully immerse themselves in their learning, with resources and activities tailored to suit a variety Of learning styles.

Sessions are led by Mrs Barnes, who brings both expertise and enthusiasm to every lesson. Her supportive, encouraging approach helps children feel confident to try new sounds, ask questions and take pride in their progress. Mrs Barnes ensures that each child receives the guidance and challenge they need, adapting activities to help all learners succeed.

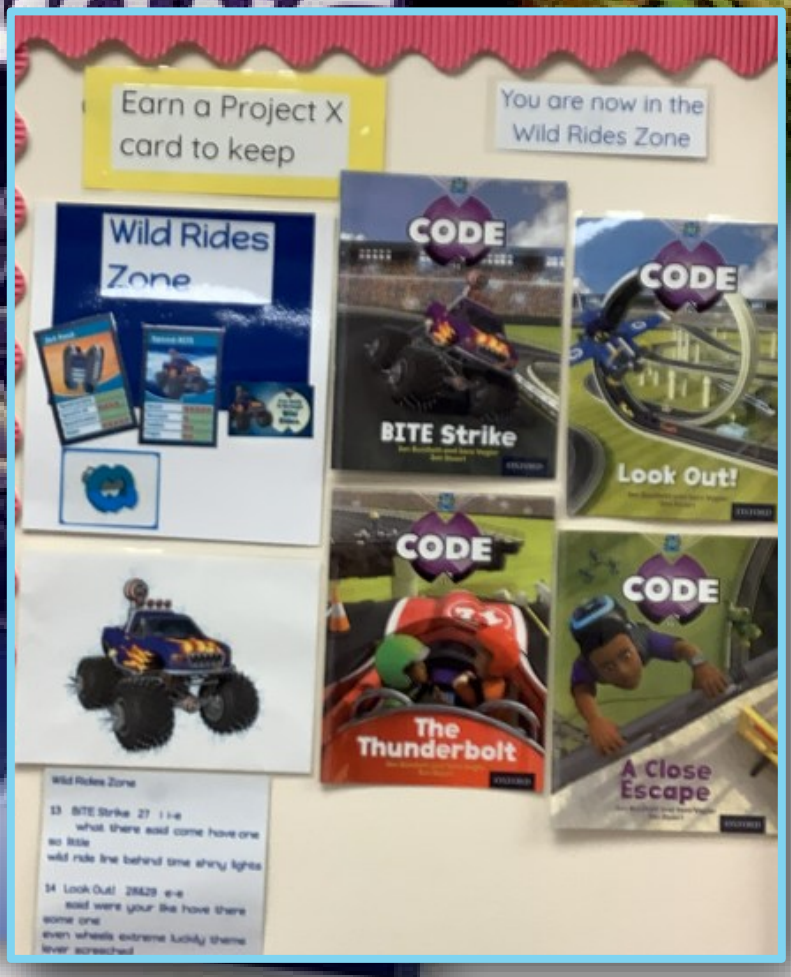

I love going to my Project X lessons. I don't find writing easy, but being with Mrs Barnes makes me feel more confident.

Reading with Mrs Barnes is great fun. We read some really cool books and learn new words. We get great stickers and rewards.
